SUMMARY

Content:

Computer Science graduate with a strong foundation in software development, system architecture, and API engineering, with practical experience in backend technologies such as Node.js and TypeScript. Experienced in designing scalable, secure, and modular systems supported by relational database management systems. Demonstrates solid analytical and problem-solving skills through the development of structured, performance-oriented backend infrastructures.

EDUCATION & TRAINING

Bachelor of Science

Virtual University of Pakistan [13/04/2020 - 08/03/2025]

City: Gujranwala | **Country:** Pakistan

Field(s) of study: Computer Science: | **Level in EQF:** 6

Intermediate

Board of Intermediate and Secondary Education Gujranwala [2017 - 2019]

City: Gujranwala | **Country:** Pakistan

Field(s) of study: Computer Science: | **Level in EQF:** 4

Matriculation

Board of Intermediate and Secondary Education Gujranwala [2015 - 2017]

City: Gujranwala | **Country:** Pakistan

Field(s) of study: Science: | **Level in EQF:** 2

WORK EXPERIENCE

Tech Inn Solutions - Pakistan, Gujranwala

Software Developer

[01/03/2025 - Current]

- Designed, developed, and maintained scalable backend services using **Node.js** and **PHP**
- Built and optimized interactive frontend components with **React** to enhance user experience
- Architected and managed **PostgreSQL** databases, ensuring data integrity and performance
- Developed and maintained **RESTful APIs** and handled seamless frontend–backend

integration

- Performed debugging, performance tuning, and long-term maintenance of production systems
- Collaborated with cross-functional teams to deliver reliable and scalable software solutions

Tech Inn Solutions - Pakistan, Gujranwala

Software Developer Intern

[01/04/2024 - 30/06/2024]

- Contributed to the creation and enhancement of **web-based applications**
- Assisted in server-side development using **Node.js** and **PHP**
- Worked with **PostgreSQL** to manage and query application data
- Supported bug fixing, small feature development, and system improvements
- Collaborated with senior developers and followed established coding standards

SKILLS

JavaScript | PHP | Rest APIs | Node.js | Next.js | React.js | TypeScript | Express.js | PostgreSQL | Docker | Git

LANGUAGE SKILLS

English

IELTS Academic: Overall 6.5, CEFR Level B2

PROJECTS

[01/07/2024 - 21/02/2025]

Leaf Disease Detection (Final Year Project)

Virtual University of Pakistan

Technologies:

TensorFlow, Python, REST APIs, React Native, PostgreSQL, Conda

- Designed and trained a deep learning-based image classification model for leaf disease detection.
- Integrated the **ML** model with a mobile application using **REST APIs** for real-time predictions.
- Performed dataset preprocessing, model training, and deployment in a production environment.
